End Extreme Poverty. Fix Climate Change. Fight Injustice and Inequality.

In September 2015, countries around the world in collaboration with the U.N. adopted a set of goals to end poverty, protect the planet, and ensure prosperity for all over the next 15 years. This agreement is part of a new sustainable development agenda where everyone - including governments, the private sector and civil society - is encouraged to do their part.

What can I do? Spread the Word

Tell everyone you know. The more people who know about the Global Goals, the more successful they will be. We can’t advocate for our rights if we don’t know what they are. We can’t convince our leaders to do what needs to be done if we don’t know what we are convincing them to do. If we all fight for these goals to be achieved, our leaders will respond.
Get Involved

Keep Spreading the Word
