How are our hearts on FIRE?

Integrating the mission, core values, and vision into our daily life, we reflect on the following personally and communally, among ourselves and beyond.

FOCUS

- How are we being courageous and compassionate?
- How are we being a transforming presence?
- How is our consciousness evolving and being transformed?

INCLUDE

- Who else needs to be invited to the table?
- What partnerships do we seek? Whose table might we join?
- How are we tending to diversity, equity, and inclusion around the table?

RELATE

- How are we communicating with attention to mutuality, culture, and language?
- How are our actions informed and influenced by the cry of all creation?
- What is our creative response to the call of fostering equity and diversity?

EXPAND

- How are we addressing the signs of the times?
- What risks are we taking, or do we need to take?
- What might we need to re-imagine to be more fluid and flexible?

We continue our heritage of living with a pioneer spirit of bold faith, foresight, and flexibility as gifts for our mission.
